## Why Use Archidlam

### LATEST TECHNOLOGY

Archidlam is manufactured in a state-of-the-art plant at Rudrapur, Uttaranchal spread over 15 acres using latest technology.

- 3 HPL presses having automated Monitoring System of Press for uniform temperature control which ensures perfect bonding of the resin with the paper.
- High Speed Impregnator ensures least wastage and uniform resin impregnation on the Kraft paper.
- The Swiss Make Kundig Sanding machine ensures uniform sanding resulting in proper bonding of laminate with the substrate.

### EXTENSIVE RANGE OF DESIGNS & SIZES

- 1000 Designs
- 50 Textures
- Sizes (mm) - 2400 X 1220, 2464 X 1244, 2800 X 1300, 3050 X 1300
- 15 Value added Laminate products.

### GERM FREE

We offer a germ free sanitized range of Laminates which can be used without hesitation in sterile environments like hospitals, nurseries, kids rooms, kitchens etc., making the place an antibacterial space.

### HANDPICKED PAPERS & TEXTURES

Papers and textures are imported from Europe which are extremely premium and luxurious giving a very natural feel to the product.

### COLOUR CONSISTENCY

With the help of advanced technology we offer uniformity in colours.

### GLOBAL PRESENCE

Exporting to 20 countries across the world.

### PAN INDIA MARKETING

20 Marketing Offices and 2000 Dealers and 7 warehouses to give service to our customers.

### Green & Environment Friendly Product

We are now recipient of the following prestigious Certifications.

**GREEN GUARD:** This certification ensures that a product has met most rigorous and comprehensive standards of USA for low emissions of volatile organic compounds (VOCs) into indoor air.

**FSC (Forest Stewardship Council) Certification** which has been awarded due to the use of only renewable timber for the manufacturing of Kraft paper.

**CE Marking** on a product which means that the product complies with the essential requirements of the relevant European health, safety and environmental protection legislation, in practice by many of the so-called Product Directives.

**Singapore Green Label** which is a seal of endorsement on its environmentally-friendly claims to prevent the abuse of green-washing.

**ISI** helps maintain the service and quality of a product. Bureau of Indian Standards (BIS) affords the ISI mark to any product as third party guarantee after ensuring its quality, reliability and safety.

**GRHA**, along with the activities and processes that lead up to it, benefits the community at large with improvement in the environment by reducing greenhouse gas emissions, reducing energy consumption and the stress on natural resources.

**Ecomark** to reduce the adverse environmental impact on the products, improve the overall quality of the environment and promote sustainable management of resources in India.

**Innovation**

Laminate that is resistant to finger print marks, scratches and scuffs.

Technology Décor paper used in Anti-Finger Print Laminate is coated with a transparent acrylic resin which is electron beam cured (EBC). This gives the Laminate a superior surface which makes it anti-finger print, scratch resistant, smudge and smear free.

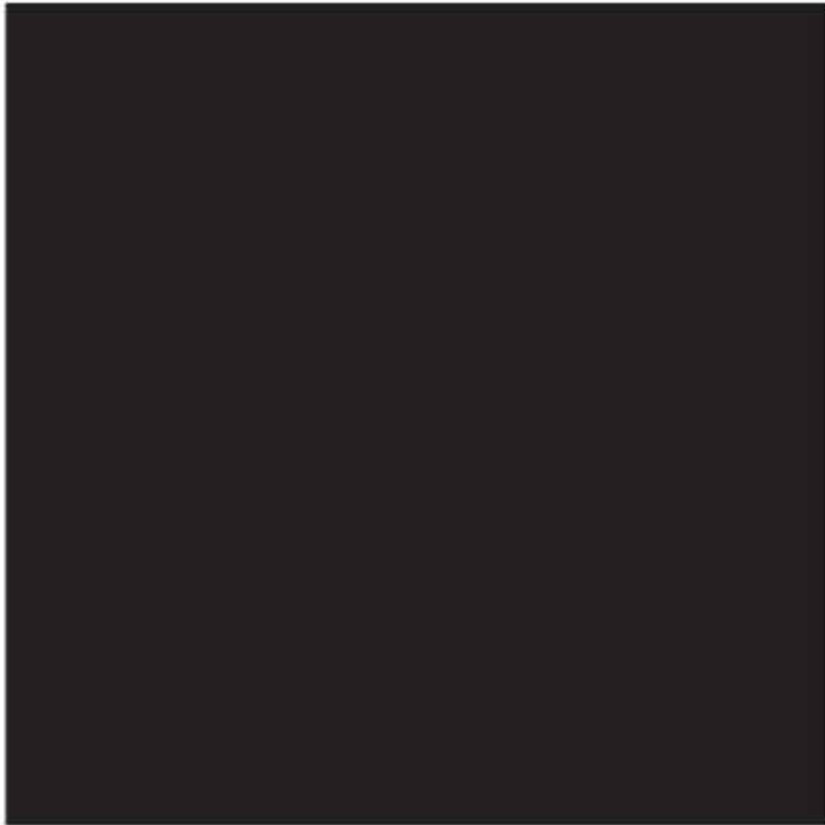

**Uniqueness**

General Laminates develop stains, scratches, smears during usage. The Anti-Finger Print

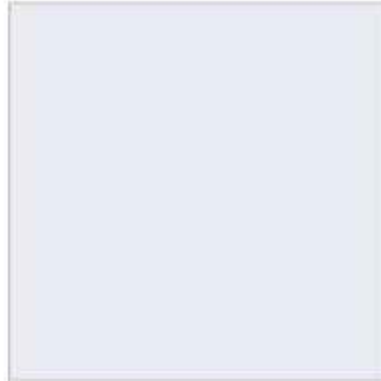

Laminate is able to sustain all these marks and is dust and maintenance free. It is a matt finish Laminate and when exposed to light does not reflect it. It makes the surface lustrous and pristine. In effect it always looks new. It has anti-static and anti-bacterial properties. It is mould resistant. It can be used for conference tables, dining tables and children's desks.

**Applications**

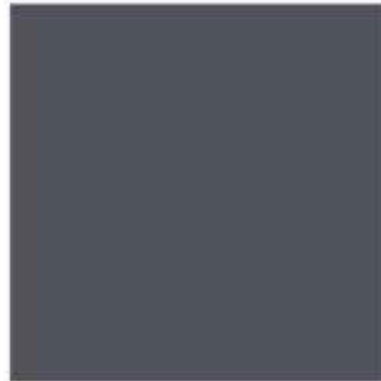

Places with heavy footfall like malls, commercial buildings, healthcare, education institutions, hotels, retail showrooms.

ArchidEdge brings a uniform and seamless finish to your interior and furniture masterpieces. Laminates tend to be joined for the finishing of a product. With ArchidEdge, the Laminate is infused with solid colour design throughout the entire thickness eliminating the shadow line effect. Therefore, there are no dark edges, guaranteeing perfectly smooth Laminates ideal for retail and commercial spaces and customised furniture.

**HIGH PRESSURE LAMINATES:** Archidlam High Pressure Laminates are manufactured using modified phenol formaldehyde resin with a special molecular ratio to impart strong bonding in the Laminates. The use of the state of the art High Pressure Laminate Press gives the product increased dimensional stability. In addition our Swiss make sanding machine ensures uniformity and a well sanded surface for better adherence of the adhesive and more efficient use of glue.

**DIGITAL LAMINATES:** Archidlam Digital Laminate collection is a range of inspiring designs. These comprise of artistically blended patterns that bring life to any given space. These vibrant and dramatic prints have their own story to tell. They are indeed the choice of the new age!

**UNICORE LAMINATES:** Archidlam Unicorn Laminate is manufactured by using special decor paper in the core layer of the Laminates. This gives the uniform colour on all sides of the Laminate. Now get rid of dark edges and get a uniform seamless finish. One of the drawbacks of High Pressure Laminates is a joint. ARCHIDLAM Unicorn Laminate removes this limitation through a wide range of solid colour designs which infuse the material throughout its entire thickness, eliminating the shadow line effect. These Laminates are perfect for retail, commercial spaces and customised furniture as they guarantee that while your interiors look sharp, the edges between the Laminates are smooth. Unicorn Laminate comes in solid colours, suede and glossy surfaces which uplift the look of your interiors.

**MAGNETIC LAMINATES:** Painting and pasting of pictures has become out dated. Stay tuned with the new Archidlam Magnetic Laminate . A unique product that has an iron sheet within it. This value for money product can be used for displaying your notes / pictures using magnets, more creatively, yet without damaging the surface.

**POSTFORMING LAMINATES:** Archidlam Postforming Laminate is made using special resin and pressing technology that retains the postforming property, ensuring the desired level of bending at 180 degree. This makes the Laminate malleable and flexible thereby ensuring corners as seamless as possible.

**FIRE RETARDANT LAMINATES:** Archidlam Fire Retardant Laminates are manufactured by incorporating papers with a special grade of phenolic resin which has fire retardant chemicals in its composition. This special resin formula ensures high resistance to the flame propagation. This makes it highly safe and harmless, minimises smoke emission and delays temperature rise.

**CHALK BOARD LAMINATES:** Archidlam Chalk Board Laminate has a special surface which enables us to easily erase the chalk marks. It can be used for Vertical and Horizontal applications. It is an excellent alternative to a writing board and is lighter on the pocket as well. The surface colour of the laminate facilitates easy reading and legibility of words written on it.

**MARKER BOARD LAMINATES:** Built with a special type of polymer, Archidlam Marker Board Laminate imparts durability to surface with easy cleaning of dry erase markers or wet erase markers.

**SWITCH BOARD LAMINATES:** Archidlam Switch Board Laminate has a special insulation property which makes the sheets safe for use in plugs and sockets.

**INTERIOR GRADE COMPACT LAMINATES:** Archidlam Interior Grade Compact Laminates are formulated with inner core of cellulose fibers impregnated with special thermosetting resins. These Laminates are rough and tough and very durable.

**EXTERIOR GRADE COMPACT LAMINATE:** Archidlam presents Xteno which will beautifully the façade of your building. It is possible to change the appearance of your exteriors in a wide variety of ways from exciting wood, stone or metal patterns and vibrant uni colors. Being water resistant and UV resistant it can be applied onto the exteriors of any building.

**UNICORE COMPACT LAMINATES:** Archidlam Unicorn Compact Laminate is the amalgamation of multi-layered decorative papers and high performance. Each layer of colour is beautifully inspired to give you seamless beauty in every hue. Also available in Black & White. These can be applied to both horizontal and vertical applications where the surface should be functional, durable and also decorative. They offer greater dimensional stability and fitness and are resistant to water, abrasion and fire.

**DIGITAL COMPACT LAMINATES:** As the world goes Digital, so do Archidlam Laminates! Choose your favourite photographs, designs, motifs and patterns and turn them into beautiful interiors around you with our Digital Compact Laminates.

**SANDWICH COMPACT LAMINATES:** Archidlam brings you Sandwich Compact Laminates - a brilliant breakthrough of technology that brings to your service multiple cover linings over the edges. You have the unique advantage of adding any number of different colour linings according to one's own personal preference. Come and take the edge off your Cabinets, Countertops, Tables and add the edge of magic.
