Hettich Forum at Kirchlengem, Germany

Hettich Manufacturing Plant at Vadodra, India

Hettich Manufacturing Plant at Indore, India

Hettich was founded in 1888 and is today one of the world's largest and most successful manufacturers of furniture fittings. Over 7,400 members of staff in almost 80 countries work together towards one objective: developing intelligent technology for furniture. With it, we excite people across the globe. And are a valuable partner to the furniture industry, retailers and the trades.

The Hettich brand stands for consistent values: for quality and innovation. For reliability and closeness to customers. Despite our size and international significance, Hettich has remained a family owned business. Independent of investors, we have a free hand in shaping our future with a focus on the human element and sustainability.

We work to inspire our customers with our ideas & our passion.

Free Design Service

Looking for designs to liven up your Living Room, Bedroom, Bathroom or Kitchen? A dedicated team of highly qualified Interior Designers are at service to provide customized design solutions to suit individual tastes and budgets, completely free of cost.

Free Consultation at Doorstep

Looking for perfect Furniture Fitting solutions? A dedicated team of highly qualified professional will provide expert solutions to suit your need and budget right at your doorstep, completely free of cost.

Hettich Customer Care Service

In today's fast paced and technologically advanced era, most of the organizations succumb to the pressure of staying ahead of the competition and often end up neglecting the most critical aspect of business i.e. customers. Hettich, being a customer-centric organisation, is very sensitive towards this. Hence, we constantly endeavour to provide the best quality driven products and services and be ever-responsive to customer needs and feedbacks.

Concealed Hinges

► Fitting information

Full overlay

The door is in front of the cabinet wall and only a small gap remains at the side within which the door can open reliably. Alternatively, the door can also be overlaid fully, in which case sufficient space must be allowed at the side for the required minimum reveal. Straight hinges are used.

Half overlay

This is where two doors are positioned in front of a cabinet centre panel. The required overall reveal is between them (at least 2 x minimum reveal). In other words, each door has a smaller overlay and cranked hinges are therefore used.

Inset door

The door is positioned inside the cabinet, i.e. next to the cabinet side. Here too, a gap is needed so that the door can open reliably. Highly cranked hinges are used here. For an inset door, the holes for attaching the mounting plates must be offset to the rear: Position of the fixing holes = 37 mm + door thickness + 1.5 mm + door offset

Minimum reveal

For overlay and inset doors
The minimum reveal (also known as the door clearance or minimum clearance) is the space required at the side so that the door can open. The size of the minimum reveal depends on the cup distance C, the door thickness and the type of hinge selected. Radii on the door edges reduce the door clearance. The minimum reveal is shown in the table for the respective hinge types.

Minimum reveal

For half overlay doors
The total reveal selected between the doors must be at least twice the door clearance. Both doors can then be opened at the same time.

Cup distance C

Cup distance C is the distance between door edge and the edge of the cup drilling. The greater the distance selected for cup distance C, the smaller door clearance will be, i.e. the minimum reveal required.

Overlay / Basis

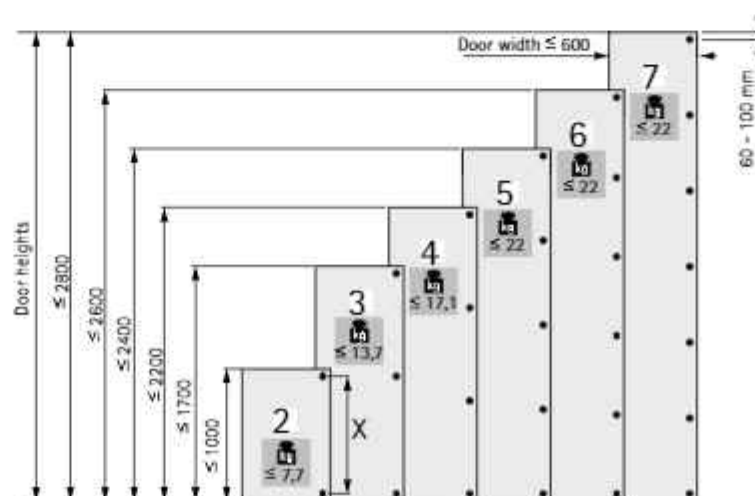

A = Overlay
B = Basis

Overlay refers to the projection of the door in front of the cabinet side. Basis refers to the projection of the cup in front of the cabinet side for a mounting-plate distance of 0 mm.

Number of hinges per door - Veosys

Door width, height and weight as well as the material quality of the door are decisive factors determining the number of hinges required.

The factors encountered in practice differ widely from case to case. For this reason, the number of hinges specified in the diagram must be understood as a guide only. If in doubt, it is recommended to carry out a trial mounting and adjust the number of hinges as necessary. For reasons of stability, space X between the hinges must always be made as large as possible. Distance X must be at least 280 mm.

Cover cap for Sensys hinge arm

- Can be used with Sensys hinges apart from 8657i / 8657 / 8687
- Cover caps with customised embossed or printed logo on request
- Steel, nickel plated

Version	Order no.	PU
Embossed with Hettich logo	9 199 822	1/50 ea.

Cover cap for Sensys zero protrusion hinge

- Can be used with Sensys hinges 8657i, 8657, 8687
- Cover caps with customised print available on request
- Plastic, anthracite

Type	Order no.	PU
Printed with Hettich logo	9 099 871	1/50 ea.

Cover cap for Sensys hinge cup

- Can be used for Sensys and Intermat 9930 with cup in Sensys Design
- Steel, nickel-plated

Version	Size Xmm	Order no.	PU
for TH52 / TH53 / TH 54	68.2	9 082 614	1/50 ea.

Screw-on cross mounting plate for Sensys (Series 8099)

- For $\varnothing 4.5 \times 16$ mm countersunk wood screws
- Hole spacing 32 mm
- Oblong hole height adjustment ± 3 mm
- Steel, nickel-plated

Distance D mm	Order no.	PU
0.0	9 091 575	1/100 ea.

Linear mounting plate for pressing in (8099 series)

- For drilling \varnothing 10 mm x 12 mm
- Quality classification under EN 15570, Level 3
- Oblong hole height adjustment \pm 1.6 mm
- Zinc die-cast nickel plated

Distance D mm	Order no.	PU
0.5	9 088 242	1/50 ea.

Screw on Silent System, half overlay / full overlay

- For screwing onto top or bottom cabinet body panel
- Cushioning effect infinitely adjustable via setting screw
- Installation on hinge side
- Use two Silent System elements for front panel weights over 13.5 kg
- Can be retrofitted
- Nickel plated die-cast zinc

Door mounting option	Order no.	PU
Overlay	9 046 472	1/50 ea.

Opening angle limiter for Sensys 8657i

- For reducing the opening angle of doors with adjoining elements
- Avoids damage to the front panel
- Also suitable for hinges without Silent System, without self closing feature
- Plastic, anthracite
- For installation notes, see Technical information

Type	Order no.	PU
Limitation from 165° to 90° or 135°	9 090 864	1/50 ea.

Press in Mounting Fixing Screws & Socket

- Press in sleeve and screw
- Used for example, to replace hinges with cup installation for pressing in
- \varnothing 10 x 11 mm
- Colourless plastic / steel, nickel plated
- For M5 thread
- Drilling \varnothing 10 mm

Description	Size mm	Order no.	PU
T 43 hinge screw for press in mounting	\varnothing 10 x 11	1 001 097	5000 pc
T 43 hinge sockets for press in mounting	\varnothing 10	1 058 613	10000 pc

Onsys Hinge

- ▶ Soft close concealed hinge with clip on installation
- ▶ Opening angle 105°

Onsys 4447i TH 52, opening angle 105° with integrated silent system

- ▶ Concealed hinge with clip on installation with Integrated Silent System
- ▶ Quality classification under EN 15570, Level 2
- ▶ For door thickness of 14 – 25 mm
- ▶ Cup diameter 35 mm
- ▶ Cup depth 11.5 mm
- ▶ Integrated overlay adjustment + 2 mm / - 2 mm
- ▶ Integrated depth adjustment + 2.5 mm / - 1.5 mm
- ▶ Height adjustment at mounting plate
- ▶ Steel, nickel plated

Drilling pattern

full overlay (Base B 12.5 mm)

Push to Open Opening System for Handleless Furniture Fronts

- ▶ P20 universal maxi & push to open pin (Long stroke)
- ▶ For Hinges with self closing feature

P20 Universal Maxi

- ▶ P20 Universal
- ▶ Door-opening system for handleless furniture doors.
- ▶ Overlay and inset doors
- ▶ For door widths of 300-600 mm and door heights of 300-2400 mm.
- ▶ Can be used with concealed hinges from the following ranges:
 - Intermat
 - Slide-on

Description	Order no. / colour white	PU
P20 Universal Maxi	9.051.925	25

Push to open Pin Strong for screwing on (Long Stroke)

- ▶ For use with concealed hinges
- ▶ For use in combination with particularly tall and/or heavy doors for example
- ▶ Suitable for full overlay, half overlay and inset doors
- ▶ Large adjustment range of 6 mm
- ▶ Opening movement 1.4 mm
- ▶ Plastic

Description	Order no. / colour light grey	PU
Push to open Pin Strong for screwing on	9.089.611	1

Drilling pattern for long stroke, overlay door or inset door

Glass Door Hinge ET 150

- ▶ Clamp version
- ▶ Glass thickness upto 5.2 mm

Glass-door hinge ET 150

- ▶ Door size max. 1000 x 500 mm
- ▶ Glass thickness max. 5.2 mm
- ▶ Opening angle 105°
- ▶ A reveal of 3 mm is required at the top and bottom, as well as 2.8 mm at the sides
- ▶ The hinge is secured to the glass door by a clamping screw making it unnecessary to drill into the glass.
- ▶ Zinc, die cast

Push handle

- ▶ Design matches glass-door hinge ET 150
- ▶ The handle is secured to the glass door by a clamping screw
- ▶ Door is kept closed by the magnetic catch D7 / GP9 (black plastic)
- ▶ Dimensions: height 25 mm, width 36 mm, depth 17 mm
- ▶ Zinc, die cast

Note:

Glass-door hinge is only available as a complete set comprising a top and bottom hinge.

Mounting examples:

Description	Finish	Order no.	PU

Push handle on right	Nickel-plated matt	0 020 872	1/20 ea.
Magnetic catch D7 / GP9	Black plastic	0 020 873	1/20 ea.

Ball Bearing Hinge

► Bulk pack

HIN – Ball Bearing Hinge

Features:

- SS 304 Hinge with Stainless Steel Pin
- Loading capacity up to 80 kg per 3 hinges
- Tested acc. to EN 1935 (Class 13) for 200,000 cycles
- High quality PVD coating thickness: 16 Micron
- Supplied with SS Philips head screws
- Recommended for both steel & wooden doors

Technical details:

- Ø Barrel diameter: 14 mm & leaf thickness: 3 mm
- Screws Size: 4.8x31 mm & milling for doors: 3 mm
- Edge available: Square & round edge & hole pattern: C type & Z type
- Leaf Material: SS 304
- DIN Left/Right Usable with available sizes: 5x3x3 / 4x3x3
- Finish Available: SSS,

Satin Stainless Steel (SSS)

Centre hinge 625 for folding doors, opening angle 180°

- ▶ Centre hinge for folding doors
- ▶ Can be installed at the centre or with pivot offset
- ▶ Top running performance due to abrasion resistant distance rings with pivot bearing
- ▶ With fixed steel pin
- ▶ Steel, nickel plated

Order no.	PU
1 069 932	1/10 ea.

Mounting centred

Mounting with pivot offset

Face frame hinge

- ▶ For mounting movable fascias
- ▶ 90° opening angle
- ▶ The integrated spring system serves as a stay closed function in the closed position and also holds the fascia in line with the door in the 90° open position
- ▶ The slim side arm is particularly compact
- ▶ For example, for use with retractable door fitting KA 5740, see sliding door systems
- ▶ Cup depth 12.5 mm
- ▶ Die-cast zinc, nickel plated

Order no.	PU
0 060 832	1/10 each

Mounting example

Drilling pattern

A modern kitchen is expected to be packed with many different functions & ergonomic arrangements. The Lift Advanced flap fitting meets that requirement in several respects. The fitting comes in four outstanding varieties with you can meet simply every requirement.

The special advantage of Lift Advanced: it uses the same cabinet drilling pattern for all fore varieties.

Superior convenience:
Lift Advanced with individually adjustable opening force and cushioned closure.

Lift Advanced is suitable for various carcass widths and heights, for wooden fronts, as well as for fronts with wood or aluminium frame.

Three-dimensional front adjustment guarantees perfect gap alignment.

Lift Advanced HF

- For wooden front panels or framed wooden front panels or front panels with 19 mm wide aluminium profile
- Adjustable opening force
- Silent System integrated – soft-closing action
- Flap weight including handle 3.8 – 15.4 kg (gas springs must be ordered separately)
- Flaps of unequal height can be selected for an internal carcass height of 490 mm and over
- It is recommended to use fast-assembly concealed hinges with an opening angle of at least 110°, e.g. Sensys 8645i / Intermax 9943 / Onsys 4447i order hinges separately
- Three-dimensional front adjustment: vertical ± 2 mm, horizontal ± 2 mm, tilt / depth ± 2 mm
- Cross member or centre hinge not required
- Powder-coated aluminium, silver / grey plastic

System Components

Set comprises:

- 1 pair of flap fittings, right and left
- 1 pair of cover caps, right and left
- Fixing material

Adapter for connection to 19 mm width aluminium profiles:

- Plastic, grey

Order no.	PU
9 079 601*	1 set

Gas spring for adapting to different flap weights:

- Note: If selection table shows a choice of two spring, select the stronger spring

Quadro 25 Drawer Runner

- ▶ Partial extension runner with stop control
- ▶ Loading capacity 25 kg

Quadro 25 with Stop Control (Partial extension)

- ▶ Stop Control - integrated self-closing mechanism for automatic closure
- ▶ Convenient slide-on assembly with catches and tool less vertical adjustment
- ▶ Flexible interchangeable system - from Quadro partial to full extension runner without altering carcass, drawer and front-panel dimensions
- ▶ Loading capacity to EN 15338, Level 3
- ▶ Galvanised steel

Planning dimensions

The dimensions stated produce a minimum gap of 1.5 mm between front panels. Cabinet hole pattern must allow for thicker front-panel buffers.

● = minimum number of screw-fixing positions

Catch for wooden drawers with grooved base:

Description	Order no.	PU
Left catch	9 144 830	10 ea.
Right catch	9 144 841	10 ea.

Quadro 25 with Stop Control

Nominal length / Drawer length NL mm	Minimum carcass depth KT mm	Extension loss EL mm	Hole spacing b1 mm	Order no.	PU
250	263	50	160	9 243 213	10 pair
300	313	50	160	9 243 214	10 pair
350	363	62	192	9 243 215	10 pair

500	513	98	288	9 243 218	10 pair
550	563	98	320	9 243 219	10 pair

Note: Above BOM Codes includes catches also.

Using the mounting plug reduces drawer length (NL) by 10 mm.

Quadro 25 Drawer Runner

- ▶ Partial extension runner with silent system
- ▶ Loading capacity 25 kg

Quadro 25 with Silent System

- ▶ Silent System - the integrated soft-closing function shuts the drawer quietly and gently
- ▶ Convenient slide-on assembly with catches and toolless vertical adjustment.
- ▶ Flexible interchangeable system - from Quadro partial to full extension runner without altering carcass, drawer and front-panel dimensions
- ▶ Loading capacity to EN 15338, Level 3
- ▶ Galvanised steel

Planning dimensions

The dimensions stated produce a minimum gap of 1.5 mm between front panels. Cabinet hole pattern must allow for thicker front-panel buffers.

Catch for wooden drawers with grooved base:

intelligent
kitchens

Intelligent Kitchens

There are three important points to bear in mind when planning a kitchen:

- ▶ Keep the distance short
- ▶ Get the ergonomics right
- ▶ Take advantage of today's brilliant internal fittings

Working with the five functional areas (illustrated), the planning concept helps to produce a layout that keeps distances short & workflow smooth. It also identifies intelligent storage solution for each area. Hettich's functional fittings are key elements in an intelligent, user friendly kitchen. They help to ensure good ergonomics, efficient storage & easy access.

CargoTech

CargoPlus

CargoTech M

Cargo Stainless Steel Wire Basket Systems are designed to offer a perfect blend of aesthetics and functionality to your kitchen. Made from food-grade stainless steel, these wire basket systems are specially designed for Indian climatic conditions. They come with a 10 years replacement warranty against rusting, which is a testament to the superior quality of these baskets.

There are 3 series of Hettich Cargo Stainless Steel Wire Basket Systems available in India viz. CargoTech, CargoTech M and Cargo Plus to meet the varied needs of Indian customers. These basket systems come in various sizes along with endless interchangeable inlet options like that of thali, plate, cups, saucer, cup/saucer combo, basket dividers and bottle separators.

A – Selecting correct size of Basket

- ▶ Hettich offers solution for both regular size as well as in pot n pan size for intelligent arrangement & optimum usage of every inch of space available.
- ▶ Hettich offers basket in three heights i.e. 100, 150 & 200 mm
 - 100 mm basket are mostly used for cutlery storage
 - 150 mm basket can be used for storage of small boxes and jars, with some of the intelligent inlets one can store cups saucers as well as small plates.
 - 200 mm basket are mostly used as grain trolley & large size container drawer & with intelligent inlets it can be used for arranging bigger plates & thalis.
- ▶ As per depth of basket is concerned we offer solution for smart Indian kitchen sizes. i.e. 500 & 550 mm in depth.
 - 500 mm basket needs clear cabinet depth of 525 mm
 - 550 mm basket needs clear cabinet depth of 575 mm
- ▶ When it comes to width we offer many sizes so as to fit in all the standard size cabinets i.e. 450 500 550 600 & 900 mm
- ▶ Minimum Internal Carcase size required for Basket: 414, 464, 514, 564 & 864 mm respectively.
- ▶ Minimum Internal Carcase width (Standard carcase width) size required for Bottle/ Spice Pull outs: 114 (150), 164 (200), 204 (240) & 264 (300) mm

B – Selecting correct size of Runner for Basket

- ▶ Basket systems can be completed by two types of runners
- ▶ One can choose between Quadro Runners (bottom mounted) and KA telescopic runner (side mounted) as shown in above picture
- ▶ Runner (Nominal length) and Basket (Depth) size should be same for correct installation
- ▶ As per depth of basket i.e. 500 & 550 mm in depth.. Channel size will also be 500 & 550 mm respectively

Range of runners

1. Quadro runners:

Quadro-25 Part Extn. With Silent/ Push to open system 25 Kg

Quadro-V6 Full Extn. With Silent/ Push to open system 30Kg

2. KA telescopic runners:

KA 5632 45kg Zinc / Black

KA 4532, 35kg Silent System / P20 Zinc

KA 4732, 35kg, Silent System, Zinc/ Black

2) KA Telescopic Runner

3) Clips

4) Logo

Installation stages

1. Align Components

2. Attach clips

3. Fix runner with clips

4. Check alignment with Carcase

5. Final assembly, basket fixed to fascia

Fascia fixing & adjustment

*For angular adjustment remove fixing screw & use other 3 screws.

*Carcase internal elevation with basket on KA runner

CargoTech M baskets are an economical range of functional wire baskets, which impart an uncluttered look to kitchens. This superior drawer series comes with an impressive lay of wire baskets in different dimensions for different purposes.

CargoTech M can be installed in ready-made size carcasses. There is no need to do any adjustments for correct installation. Mesh of steel wires provide sturdy structure to the drawer and the range consists of well-designed baskets for holding different products like thali, saucer, cups, cutlery, jar etc.

Compatible with telescopic runners

Load capacity 45 kg

Well designed baskets

Available in two depths 500 mm, 550 mm

470	9 220 552	2 pc
520	9 220 553	2 pc

Components for 70 mm

For regular

- 1 Set of CargoPlus

For Innotech set

- 1 Set of Innotech drawer side panels (left & right)
- 2 Pc of front connectors for drawer side profile
- 1 Set Rear panel connector (H 70) (left & right)
- 2 Pc of cover cap
- 1 Set of Quadro runner (30kg / 50 kg) (left & right)

Components for 144 mm

For Pot & Pan

- 1 Set of CargoPlus

For Innotech set

- 1 Set of Innotech drawer side panels (left & right)
- 2 Pc of front connectors for drawer side profile
- 1 Set rear panel connector (H 144) (left & right)
- 2 Pc of cover cap
- 1 Set of Quadro runner (30kg / 50 kg) (Left & right)
- 1 Set of lengthwise railing (left & right)
- 2 Pc of railing connectors

Installation Stages

1. Assemble InnoTech with back panel

2. Place side holder in InnoTech bottom panel slot

3. Fix side holder with screws from bottom

4. Place CargoPlus in side holder groove

5. Slide clamps to fix CargoPlus to side holders

6. Fix clamp on all four corners as shown in picture

Neat on the outside, clever inside. That's the motto of modern kitchens. Intelligent fitting systems from Hettich let you include innovative functions behind attractive front panels. Also make efficient use of small midway sections, narrow cabinets and inaccessible corner to the benefit of your customers: provide unobstructed, easy access to storage space. The versatile organiser systems can be matched to the user's specific needs. High quality materials and attractive design define the look of first class quality.

Quadro Drawer Runner:

Quadro drawer runners guarantee the ultimate in drawer convenience. With attractive design through concealed installation. With a long service life and unceasing top performance. The robust, resilient runners provide the steel balls with optimum control - for perfect vertical and lateral stability. The optional Silent System gently shuts drawers in complete silence. The Push to open function automatically opens the pull-out in response to a light press on the front panel - for handleless front panels.

KA Telescopic Drawer Runner:

The ball bearing runners from Hettich guarantee smooth running action and high lateral stability. Hardened steel ball bearings, enclosed in noise absorbing plastic, provide many years of reliable, maintenance free service in any application. Available as partial, full or over extension runners, they are the ideal choice when it come to meeting exacting demands in the office, living room or bedroom.

	Note: Order Shutter Hardware 2 Sets for 2 Door & 3 Sets for 3 Door wardrobe				

Ordering Example

2 Door Wardrobe with 3 Partition, C type handle SA

A. Profile HW set - 9323591 x 1
4,789 x 1 = 4,789

B. Shutter HW set - 9323603 x 2
11,113 x 2 = 22,226

Total (A+B)= 27,015

3 Door Wardrobe with 3 Partition, C type handle SA

A. Profile HW set - 9323594 x 1
7,782 x 1 = 7,782

B. Shutter HW set - 9323603 x 3
11,113 x 3 = 33,339

Total (A+B)= 41,121

SlideLine 16

- ▶ Door weight up to 60 kg

Operating principle

- ▶ Two track aluminium profiles for screwing on
- ▶ No routing, no drilling
- ▶ Length 3000 mm, 2000 mm
- ▶ Door height up to 2400 mm
- ▶ Door width 750-1500 mm
- ▶ For max. door weight of 60 kg
- ▶ Soft opening/soft closing with improved version of dampener.
- ▶ For wooden doors (18 - 24 mm)
- ▶ Bottom running sliding door system
- ▶ Endurance test over 20,000 cycles (EN 15706 Level 2)
- ▶ Corrosion Test: 72 Hours condensation test (EN 6270)

The clever way to fold doors

Folding door solutions from Hettich provide a wide range of interesting front design options. Freely moving doors, cabinet body hugging or guided systems offer a choice of solutions for optimising folding door applications. Year in, year out, these fittings easily and reliably move door elements in practically any size, material and weight.

One idea, a wealth of options – all from Hettich.

Technology taken a step further by Hettich

Sliding door system with added value from Hettich. A single movement of the hand synchronously opens and closes two doors in opposite directions. A valuable addition for furniture solutions that impress in design and handling. This reliable system can be used for inset and overlay doors that move either vertically or horizontally.

Vertico fittings move more.

Special Sliding Door Systems

- ▶ Door weight up to 15 kg

Operating principle/1 folding door with 2 panels

- ▶ One track, vertically running sliding door system
- ▶ Inset door position
- ▶ For wooden doors or wood & aluminium-framed doors
- ▶ Door weight up to 15 kg
- ▶ Door width up to 1500 mm
- ▶ Door height 400-700 mm
- ▶ Length of runner profile (can be shortened as required) 2500 mm
- ▶ Counterweight in individually selectable materials runs behind the carcass rear pane
- ▶ Tested according to EN 15706, Level 3

KA 5740 (Pocket Sliding System)

▶ Door weight up to 14 kg

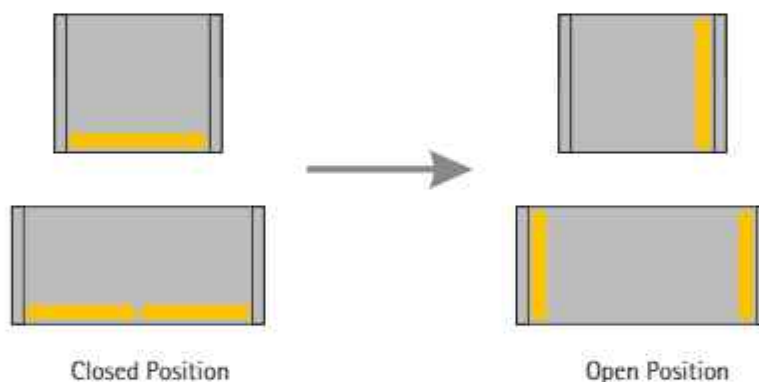

Operating principle

- ▶ Door weight up to 14 kg
- ▶ For wooden doors
- ▶ Door height up to 1800 mm
- ▶ Door width 300 - 700 mm
- ▶ Door thickness max. 16 - 32 mm
- ▶ With roll-out prevention
- ▶ Tested to ANSI/BIFMA X5.5
- ▶ Face frame hinge with spring system to be ordered separately (For article code refer page no. 33)
- ▶ Soft close sensys hinge to be used

The smart way to slide into a new space

Room divider sliding door solutions from Hettich provide a range of options to create a new space within an existing space. This system enables one to move even the heaviest of doors with considerable ease. Moreover, it provides unobstructed access to space while making the doors inconspicuous.

Making sliding heavy doors, a child's play.

Grant XHD

- ▶ Door weight up to 227 kg

Operating principle

- ▶ The TopLine Grant XHD series is a heavy duty line of sliding door hardware recommended for design applications which require the movement of heavy panels, space dividers or large doors.
- ▶ Precision ball bearing wheels ensure a smooth, quiet, and long lasting performance even under full load capacity
- ▶ Self-leveling design allows for even distribution of load for maximum performance and durability
- ▶ 3/8" (10 mm) vertical adjustment; minimal headroom required
- ▶ Heavy duty aluminium box track
- ▶ Outstanding performance and durability
- ▶ Meets and/or exceeds ANSI/BHMA standards
- ▶ Weight Capacity: 227 kg

Number of door wings and door position

Grant HD

- ▶ Door weight up to 147 kg

Operating principle

- ▶ The TopLine Grant HD series is a heavy duty commercial and residential grade sliding door hardware series ideal for single and bi-parting installations. Applications include doors between rooms, closet doors, cabinets and storage walls.
- ▶ Soft closing, soft opening
- ▶ Precision ball bearing wheels ensure a smooth, quiet and long lasting performance
- ▶ Self-leveling design allows for even distribution of load for maximum performance and durability
- ▶ 1/2" (12 mm) vertical adjustment; minimal headroom required
- ▶ Heavy duty aluminium box track
- ▶ Cushioned end stops holds door in place
- ▶ Wall mount bracket available
- ▶ Fascia available
- ▶ Meets and/or exceeds ANSI/BHMA standards
- ▶ Weight Capacity: 147 kg

Grant 1230

- ▶ Door weight up to 147 kg

Operating principle

Specifications:

Mounting: Top

Adjustment: 2" (12.7 mm) vertical

Door thickness: 1" (25.4 mm) min.

Headroom: 31/4" (82.5 mm) min., 33/4" (92.5 mm) max.

Application: Single, bi-parting & by-passing

- ▶ For doors 1" and up weighing up to 147 kg per/door
- ▶ Precision ball-bearing wheels guarantee a smooth, quiet and effortless operation
- ▶ Four wheel carrier, centre hung for efficient operation
- ▶ Vertical adjustment $\pm 1/4"$ (6.4 mm)
- ▶ Heavy duty aluminum I-beam track; jump proof design
- ▶ Conforms to ANSI/BHMA standards, Grade 1
- ▶ For by-passing doors mount parallel tracks
- ▶ For bi-parting doors use an additional set of hardware

Adjustment to different thickness of material

The values in the table refer to 19 mm thick material.
The value in the table must be multiplied by a factor in order to adjust to material of different thickness.

Material thickness mm	Factor
15	0.79
16	0.84
18	0.95
19	1.00
20	1.05
22	1.16
23	1.21
26	1.37
29	1.53

Formula for conversion
Door weight = Weight for door in thickness of 19 mm from table above x factor

Example
Door in chipboard
H x W x D = 2000 x 1800 x 16
Weight shown in table for this door size, but material in a thickness of 19 mm = 47.88 kg

Convert to 16 mm door thickness using factor of 0.84 as shown in table on left
Door weight = 47.88 kg x 0.84 = 40.22 kg

Accessorize your wardrobe

Hettich wardrobe accessories provide a good blend of aesthetics and functionality to the wardrobes. Choose from a range of wardrobe accessories comprising of aluminium profiles, LED lights, shutter handles, lock solutions etc. to impart a sleek and elegant look.

Adjustment fitting, plastic

- ▶ For straightening distorted furniture doors
- ▶ Can also be used as a precautionary measure to prevent doors from warping
- ▶ For door / front panel thicknesses from 16 mm
- ▶ Maximum door / front panel height 2600 mm
- ▶ Installing the fitting is simple and straightforward: a pair of threaded rods, one with a right-hand thread and one with a left-hand thread, are fed into a clamping sleeve.
- ▶ The threaded rods are each additionally supported in a housing that slots into a 35 mm drilling where it is screwed into place.
- ▶ Turning the clamping sleeve produces tensile or compressive force that corrects warping or bowing.
- ▶ The housing, clamping sleeve and threaded rods are covered to prevent damage to wardrobe and laundry
- ▶ The adjustment fitting can also be used horizontally
- ▶ It is recommended that 2 vertical adjustment fittings are installed near the outer edge. On large, wide doors, 2 horizontal fittings can be used instead or in addition

Set comprises:
 ▶ 2 adjustment fittings.

What fittings from Hettich join together just doesn't come apart. Hettich also supplies reliable & easy to use solutions for more difficult connections in furniture construction. Solutions that open up numerous design options using classic or light weight materials. Convenient on-site assembly. Hettich fittings keep what you promise your customers.

Rastex 15 can be used in combination with Twister and Rapid S dowels

Rastex 25 can be used in combination with Twister dowels

Coloured plastic sleeves in easy-to-grip fluted design indicate dowel lengths. Green (dowel length 20 mm) for Rastex 15, blue (dowel length 24.5 mm) for Rastex 25 and black (dowel length 30 mm) for Rastex 15.

Fast, toolless installation, simply presses by hand into the hole in the carcass side. Easy to tell apart with coloured expanding elements for 8 mm (blue) and 10 mm (green) drill holes.

Eccentric Connecting Fittings

► Rastex & Dowel

Rastex 15 without rim

- With torque support – allows furniture sides to be pulled into place from distances up to 4 mm from the panel end
- Twice as secure thanks to internal and external indentations – the dowel is always pulled in to the centred position, ruling out any displacement of furniture components
- Zinc die-cast

Finish	Order no.	PU

- Available sizes (dia x length) 8x30, 8x40, 8x50 & 6x35 mm

Description	Order no.	PU
Wooden dowel 8x30 mm	9 290 706	2000 ea.
Wooden dowel 8x40 mm	0 069 241	2000 ea.
Wooden dowel 8x50 mm	9 290 707	2000 ea.
Wooden dowel 6x35 mm	9 290 708	4000 ea.

Eccentric Connecting Fittings

▶ VB fittings

VB 21 without rib

- ▶ For strong, positive-fitting and friction-locked connections between shelves and side panels, high load-bearing capacity.
- ▶ The fitting is pressed into a double hole drilled 32 mm apart. Insertion holes with 30 and 10 mm \varnothing .
- ▶ The shelf can be inserted from above or from the front.
- ▶ The eccentric can also be tightened in the bottom panel from above. A through-hole is required in the panel for this purpose.
- ▶ For special applications, a plinth adjustment element can be adjusted through the fitting.
- ▶ Zinc die-cast nickel-plated
- ▶ Drill bits for hand and pillar drills
- ▶ Can be used in System 32

Order no.	PU
0 047 454	200 ea.

VB 21 for 19 - 20 mm shelves

Drilling pattern for panels

VB 36 / 19 for 19 mm shelves

Insert shelf from above or from the front

- ▶ Small connecting fittings for sturdy, positive fitting and friction locked connections between shelves and side panels using the tried and proven eccentric latching principle
- ▶ The fitting is pressed into a double hole drilled 32 mm apart. Insertion holes in a diameter of 20 and 10 mm
- ▶ The fitting has a spherical eccentric
- ▶ Zinc die-cast / plastic
- ▶ Can be used in System 32

Drilling pattern for shelves

Colour	Order no.	PU
Nickel plated	0 065 529	1/200 ea.

Eccentric Connecting Fittings

► VB fittings & Screw in Dowel

VB 35 / 19 for 19 mm shelves

Insert shelf from above or from the front

- Small connecting fittings for sturdy, positive fitting and friction locked connections between shelves and side panels using the tried and proven eccentric cam latching principle
- The fitting is pressed into the cropped 20 mm diameter drilling
- The fitting has a spherical eccentric cam
- Zinc die-cast / plastic
- Can be used in System 32

Drilling pattern for shelves

Dowel centre from underside of shelf

Colour	Order no.	PU
White	0 065 515	1/200 ea.
Nickel plated	0 065 513	1/200 ea.

Screw in dowel

Screw-in dowel DU 327

- Direct fixing thread for a hole diameter of 5 mm
- Dowel length 9 mm
- Steel, bright
- Can be used in System 32

Order no.	PU
0 025 052	2000 ea.

Screw in dowel DU 321

- With direct fixing thread for drilling diameter of 5 mm
- Dowel length 6.7 mm
- Can also be used for lightweight panels with 8 mm face layers
- For lightweight panels with 4 mm face layers installation only with Hettinject bonding dowels
- Steel, galvanised
- Can be used in System 32

Order no.	PU
0 074 688	1/200 ea.

Shelf Supports

▶ Wooden shelf support

Wooden shelf support

Safety:

- ▶ Steel pin with plastic support surface
- ▶ Can be used in System 32
- ▶ Load group L 50 (50 kg / m²) translucent

For drill hole diameter mm	Order no.	PU
5	0 016 180	1000 ea.

Safety:

- ▶ Steel pin with plastic support surface
- ▶ Can be used in System 32
- ▶ Load group L 50 (50 kg/m²) white

For drill hole diameter mm	Order no.	PU
5	0 025 090	1000 ea.

Sekura 7:

- ▶ Drill hole diameter 5 mm for direct fixing screw
- ▶ Countersunk head ø 6.3 mm
- ▶ Drill hole diameter 3 mm for countersunk head screw ø 4 mm
- ▶ Each with one additional pin for shelves
- ▶ Zinc die-cast, nickel-plated
- ▶ Can be used in System 32
- ▶ Load group L 75 (75 kg / m²)

For drill hole diameter mm	Order no.	PU
5	0 053 012	1000 ea.

Universal D

- ▶ Pin diameter 5 mm
- ▶ Can be used in System 32
- ▶ Load group L 75 (75 kg/m²)
- ▶ Zinc die-cast nickel-plated

Order no.	PU
0 022 737	1000 ea.

Shelf Supports

▶ Wooden & Glass shelf support

Wooden shelf support

Sekura 2.1:

- ▶ Pin diameter 5 mm
- ▶ Die-cast zinc nickel-plated
- ▶ Can be used in System 32
- ▶ Load group L 75 (75 kg / m²)

Order no.	PU
9 010 111	1000 ea.

Sekura 6

- ▶ Pin diameter 5 mm
- ▶ 1 additional pin for shelf
- ▶ Can be used in System 32
- ▶ Load group L 75 (75 kg/m²)
- ▶ Zinc die-cast nickel plated

Order no.	PU
0 079 707	1000 ea.

Sekura 1.1

- ▶ Pin diameter 5 mm
- ▶ 1 additional pin for shelf
- ▶ Die-cast zinc nickel-plated
- ▶ Can be used in System 32
- ▶ Load group L 75 (75 kg / m²)

Order no.	PU
0 019 557	1000 ea.

Glass shelf support

Glass shelf supports, Perfekt:

- ▶ With soft plastic cap
- ▶ Galvanised steel / clear plastic
- ▶ Load group L 50 (50 kg / m²)

For drill hole diameter mm	Order no.	PU
5	0 079 709	1000 ea.

Shelf Supports

► Glass & Cantilever shelf support

Sekura 8

- Glass shelf supports
- Pin diameter 5 mm
- Zinc die-cast nickel-plated / Plastic transparent
- Can be used in System 32
- Load group L 75 (75 kg / m²)

Order no.	PU
0 047 609	1000 ea.

Cantilever wooden shelf support: Titan

- Concealed installation behind the shelf
- Bolt: 10 mm A/F
- Max. loading capacity is 50 kg/m² for shelves measuring 1000 x 300 mm, 100 kg/m² for shelves measuring 1000 x 250 mm and 160 kg/m² for shelves measuring 1000 x 200 mm
- Height adjustment: ± 4 mm
- Minimum shelf thickness: 24 mm
- Adjustment of shelf slope
- Galvanised steel
- Fixing screws (Order No. 0 065 480)

Order no.	PU
0 047 661	20 ea.

Clip Connector & Connector Screws

► MultiClip & VHS

MultiClip

- MultiClip can be used in many different applications
- For wall panelling, room dividers, cladding pillars, ceiling panelling, fascias and cladding of all types
- In all applications, the fitting can be screw mounted either parallel or at right angles to the fascia or cladding component
- If it is necessary to slide the clip connectors on from the front, one of the fittings is screw mounted at an angle of 90°
- Whether for interior fittings, contract work or volume production, this fitting is a cost-saver – always and everywhere
- Only 1 fitting component for all types of application
- The clip connector components provide a secure hold with spring loaded flexible clamps and serrated surfaces
- Variable screw on positions permit to hooking in from above, from the front, from the side as well as flush fitted
- Compensation for mounting tolerances
- Clip connectors can be adjusted for perfect alignment
- Thermoplastic material, black (heat resistant)

Order no.	PU
G 046 080	1/2000 ea.

VHS connector

VHS 32 / System 32:

- Unobtrusive carcass connectors for a particularly firm hold
- For drill hole diameter of 5 mm
- The connecting sleeves are 27 or 35 mm long
- The threaded sleeve is set back, making it easier to screw the connecting screw in
- Screw M4 x 15 mm / connecting sleeve: nickel-plated steel

Description	Wooden thickness mm	Order no.	PU
VHS 32 / 27	28 - 36	0 079 659	1000 ea.
VHS 32 / 35	36 - 44	0 079 660	1000 ea.
VHS Screw SMG M 4x15	-	1 058 986	2000 ea.

Magnetic Catches & Connecting Angles

- ▶ Magnetic catch, Fixing screw & Universal angle

Magnetic catch M 72 / GP 2

- ▶ Holding force 4 kg
- ▶ Housing, plastic
- ▶ Rigid counterplate, steel, galvanised

Colour	Order no.	PU
Brown	0 013 142	1/50 ea.

Press in Mounting Fixing Screws & Socket

- ▶ Press in sleeve and screw
- ▶ Used for example, to replace hinges with cup installation for pressing in
- ▶ \varnothing 10 x 11 mm
- ▶ Colourless plastic / steel, nickel plated
- ▶ For M5 thread
- ▶ Drilling \varnothing 10 mm

Description	Size mm	Order no.	PU
T 43 hinge screw for press in mounting	\varnothing 10 x 11	1 001 097	5000 pc
T 43 hinge sockets for press in mounting	\varnothing 10	1 058 613	10000 pc

Universal angle 41.5 x 41.5 mm

- ▶ Galvanised steel

Order no.	PU
9 302 840	1/100 ea.

Universal angle 31 x 31 mm

- ▶ Galvanised steel

Important advice:

- ▶ Can be used as rear panel stabiliser with AvanTech YOU, system height 77 mm
- ▶ 1 for cabinet body width \geq 600 mm; 2 each for \geq 800 mm; 3 each = 1200 mm

Order no.	PU
9 302 837	1/100 ea.

SAH 130 for mounting in carcass

- ▶ Press-in version
- ▶ Rail or hook suspension
- ▶ Guard to prevent slipping off sideways when suspended from a hook
- ▶ Rear-panel recess (to front edge of rear panel) at least 16 mm
- ▶ Lift-off height 7.5 mm
- ▶ Galvanised steel / white plastic
- ▶ Load capacity 35 kg each
- ▶ 3-dimensional alignment: height ± 7 mm / max. depth 15 mm / laterally (for hook suspension) ± 3 mm / laterally (for rail suspension) ± 7 mm

Description	Order no.	Order no.	PU
SAH 130	079 724-L	079 724-R	1/25
Cover cap, white	079 725-L	079 725-R	1/25

Suspension rail, type B, Hook+Dowel & Special screw

- ▶ For SAH 215 / SAH 216 / SAH 130 / SAH 116 / SAH 14
- ▶ Load capacity 150 kg / cabinet for type B
- ▶ The twisted ends of the suspension rail prevent the cabinet slipping off
- ▶ Length 3000 mm (type B) with oblong holes
- ▶ Steel galvanised

Description	Order no.	PU
Suspension rail, type B (Length 3000 mm)	9 007 651	1 ea.
Suspension rail, type L (Length 130 mm)	9 208 678	1 ea.
Suspension Hook 6,0 X 50 mm + Wall plug	0 046 103	100 set
Special screw 5.5 x 50 mm + Wall plug	0 065 480	1 set

Euro leg

- ▶ Fitting system comprising height-adjustable legs, fixing blocks and other accessories
- ▶ Load capacity 450 kg / leg, maximum of 1350 kg for 3 or more legs
- ▶ Plinth drawers can be fitted from a plinth height of 150 mm
- ▶ Black plastic

Plinth height dimension X mm	Adjustment range mm	Order no.	PU

Fixing block, screw on type

- Fixing-block, screw-on type:
- ▶ With overlay to support side panel
 - ▶ Black plastic

Order no.	PU
0 071 847	100 ea.

- Plinth-panel holder, screw-on type:
- ▶ For front and side plinths
 - ▶ Installation: clips to height-adjustable leg
 - ▶ Black plastic

Description	Order no.	PU
Plinth clip + plate	0 071 845	100 ea.

Plinth adjustment fitting for side panel

- ▶ For cabinets with a plinth height of at least 60 mm, continuous side panel or separate plinth
- ▶ Particularly suitable for office cabinets, partitions and wall-to-wall units
- ▶ Adjustment range 60 - 80 mm
Height can be adjusted through the bottom panel (4 mm A/F)
- ▶ Easy installation in System 32 in combination with eccentric connecting fittings VB 20 / 21
- ▶ Adjustment can be made through the connecting fitting
- ▶ The plinth clip is designed for a space of 37 mm from plinth rear face to spindle centre
- ▶ The groove for the clip in the front plinth is positioned for the centre of the housing. However, the clip can also be used at any other height position within the housing, see drawing
- ▶ The plinth adjuster has a load capacity of 300 kg / each, 900 kg max. for three or more legs
- ▶ The direct spindle guide inside the housing makes sure furniture stands firmly
- ▶ Since the plinth adjustment fitting is symmetrical, it can be used on left or right
- ▶ Can be used in System 32
- ▶ Steel, white plastic

Adjustment range mm	Order no.	PU
60 - 80	0 040 438	1/100 ea.

Cube PLUS Shelving System

► Create infinite design possibilities

Bed Room

Dreamer's heaven

Bedrooms are more than a place to get a good sleep. It is personal and functional. Contemporary designs incorporate an element of your personality in the most private section of your house so it feels like an extension of yourself. Bring your dream space to life with the supremely talented Hettich Cube PLUS.

► MODEL 04, 1-DOOR WITH WOODEN SHELF | BLACK FINISH

Living Room

Minimalism

Less is more and never goes out of style. Clean and bare sections exude a certain calm confidence which makes you take notice. Aesthetically it lets you focus; creatively it shatters clutter. What better way to store things than storing it in regimented fashion replete with sharp lines and clean view?

► MODEL 04, 1-DOOR WITH WOODEN SHELF | BLACK FINISH

Kitchen

Tranquility amidst hustle

Cooking is an extreme experience; it can be mundane or remarkably therapeutic. Either way, it need not be taxing. We at Hettich understand that and have come up with a research-backed product concept aimed to make your life simpler and hustle limited.

► MODEL 04, 3-DOOR WITH WOODEN SHELF | BLACK FINISH

Bath Room

Unwind

Bathrooms are indispensable yet understated. Pamper your senses with luxury bathroom interiors that propagate relaxation enabled by multifaceted designs made from Cube PLUS.

► MODEL 04, 1-DOOR WITH WOODEN SHELF | BLACK FINISH
► MODEL 04, 1-DOOR WITH WOODEN SHELF | BLACK FINISH

The structure of the components

The system is a set of connectors and profiles, which is extremely versatile. Make a table, a trolley, a bookshelf or display unit out of it; the possibilities are infinite, if only you can think of them.

The Profiles

Basic profile

Profile for glass panels 6mm

Profile for shelf panels 18mm

Wooden Shelf

Shelf profile for 18mm wood

Glass Shelf

Shelf profile for 6mm glass/ 10mm Wood profile

The Connectors

Double

Triple-2D

Triple-3D

Quadruple

Quintuple

The Safe Connection

The profiles are connected by using threaded pins which are screwed into the connectors to ensure stability, strength and safety. The pins are optionally supplied with a thread securing glue and fastened with a 0.8 - 1 Nm torque. The connection guarantees excellent stability and safety owing to the preset distance of the thread.

Threaded pins matching the profile's surface are available in silver & black.

Threaded pin M4 x16mm cone point
• 0,8 - 1Nm torque

Connecting node

Profile

The Invisible Wall Mounting System

We believe in clean lines. An elegant system as this needs an elegant fixing solution which is effective and discreet.

A supporting system that can be fastened to the wall wherein the furniture can be retrofitted. This allows for simple and precise installation and allows for height or depth adjustments even post installation.

The wall mounting system is to be used to hang cube shelves on to wall. Complete system consist of wall mount bracket + wall plug + wall screws (4x38mm) Cutout Dimensions: 11mm x 55 mm (top & bottom with 11 mm dia round)

Cutout Dimensions: 11mm x 55 mm (top & bottom with 11 mm dia round)

The Perfect Connection

Our invisible solution is brilliant and is built on an equally brilliant concept; we have developed a fastening insert that is as simple as it is efficient.

The connection using the fastening sleeve is screwed into the existing furniture element either at the top or at the bottom. Profile needs to be drilled 10.5 Et 6mm step drill. Insert fastening sleeve and use wall mount screw (4 x 38mm). The system is secured with threaded screw (M5 x 16mm). Set: Fastening Sleeve + Wall Screw (4 x 38mm) + M4 x 16mm pins.

Accessories

Cover Cap (for M4 Threaded Pin)

This specially developed, very discreet cap serves to cover screwed-in threaded pins and gives your piece of furniture an even more uniform look.

Adjustable Foot & Connecting Thread

A flexible height adjustment of the furniture leg is very important in furniture design. Our version offers an adjustable range of height from 0 to 20 mm. The foot is simply screwed into the profile's end with the help of our connecting adaptor. This offers an optimal and quick solution to create height adjustable furniture feet: saw the profile to the required length, insert the connecting thread and screw in the furniture height adjustable legs, finished!

Castors

As for furniture elements that have to be mobile (e.g. tea trolleys, TV stands, etc.), the use of castors is an option. There are many versions available in the market, such as versions with or without brake, which are compatible with our Cube Plus system. The castors should be equipped with an M8 thread and can easily be mounted with a corresponding drilling in the profile and by using a connecting adaptor.

Self-Adhesive Felt Pads

Felt Pads

If your piece of furniture touches the floor with its side profiles and connecting nodes, we recommend the use of our custom-fit felt pads to protect your furniture and your floor from being scratched.

Space efficiency in high rise form

High rise pedestals are becoming increasingly popular. They provide plenty of storage space and can be organised in any way. Hettich offers the perfect fitting system for the innovative furniture concept. Catering exactly to your needs, there are two concealed drawer runners to choose from with different load capacities: Quadro Compact or Quadro Big Duplex.

Tried and proven in millions of applications, the ball bearing principle gives both versions perfect, smooth running action, high stability and strength in everyday office use. Easy installation, high lateral stability and Silent System (optional) are nothing short of impressive.

Everything in its place:
Pencil tray for utensils in the Big Org@Tower Wood.

In easy reach:
The file shelf directly at the workstation.

For mini meetings:
Pull-out seating.

The healthier and more efficient way to work With LegaDrive Systems. Height adjustable desks are becoming more and more popular in office and contract furnishing. Because many employers know: ergonomic work stations help to keep staff in good health and boost

work productivity in the long term. For productivity at the highest level: LegaDrive Systems. Alternating work posture between sitting and standing is an effective way to avoid back pain and back disorder. As a result, LegaDrive Systems helps to maintain good health.

Sturdy, secure, strong:
The LegaDrive lifting column is double telescoping.

90 degree angled desk:
Perfect for teamwork and meetings.

Ergonomic, spacious, stylish:
The executive office with 135 degree angled desk.

Action defined meetings:
LegaDrive Systems for conference tables.

Always the right sitting posture:
Thanks to mechanical height adjustment.

Perfect for benches:
LegaDrive Systems with continuous foot extension.

Modern design and intuitive operation:
Height adjustment is as easy as this.
