Applications and Notes

Tested:
All tests are carried out as per international standards.

Maintenance:
Clean with mild soap solution or any household detergent. Abrasive cleaning substances should not be used.

Order:
While placing an order always specify the design number or name along with the finish.

- Note:
The samples pasted in the catalogue represent the color pattern and not the actual thickness. There may be slight variations in shades from different batches as this is a chemical product. The product must be inspected prior to application and our liability will be limited to the extent of the cost of the product.
- Do not use chemicals for cleaning.
 - Avoid direct Sunlight / continuous light. This may cause color fading.
 - Extra care is required in vertical pasting of laminate sheets as there is possibility of bubbles due to lack of uniform pressure.
 - Cuts and cracks at the corners may occur by improper conditioning, improper bonding or poor planning. Avoid all these to prevent cracking at corners.
